Subject: RE: [EXTERNAL] RE: Draft Final IOU RI

Hi Lynn - On the BERA FSP, we are still waiting on EPA approval of our responses to comments on the Draft IOU SLERA. These comments are defining some of the COPECs for the BERA. Last I am aware of, you forwarded the final RTCs to Ned and CH2MHill to review the responses we provided. Have you received response from them?

On the Area 40 FS, I think we are still a few weeks out. We are almost ready to submit RTC on Area 40 RI. Next may be RTC on Area 40 HHERA.

Let me know if you have questions. Chris

Subject: [EXTERNAL] RE: Draft Final IOU RI

Chris, Although EA will need to be familiar with the contents of the OU7 Draft Final RI, I told them not to dive into a review of the documents right now. They were ramping up to do a complete re-evaluation of all the AR response to comments iterations. Getting familiar with the documents is fine, but they were preparing to reanalyze the docs for current criteria, data gaps, adequacy of response to comments, etc. -- which we've already paid CH2M to do. The CAG is free to start reviewing the draft final, and we can note their comments, but we shouldn't plan on revising the documents until the BERA and data gap analysis is complete—when you start to rewrite the RI for final.

Speaking of, when is the SAP for the BERA due in?

And when will we receive the Area 40 draft FS for review?

Thanks, Chris, and have a good weekend,
Lynn

Subject: Draft Final IOU RI

Hi Lynn – Walk through of the format of the subject document went well last night at the CAG. Larry Ladd was very excited to get his hands on a copy (get prepared for comments). Charlie with HDR was there, so I provided him with EA's copy of the document. I know CH2M Hill reviewed the document, but I am assuming EA will take over from here. Charlie stated that he was told that all work was on-hold until Julie returned. I think if EA is going to review our

BERA FSP and IOU data gap FSP and future RI/FS documents, it would be a good idea to have them review and understand this draft final document. We would be happy to have a meeting with them to walk them through the approach and content.

Let me know your thoughts. Thanks, Chris
